

## 3 Easy Steps

**TIRED OF YOUR OLD, DRAB FURNITURE?**

In just 3 easy steps, you can transform even your junkiest furniture into a magazine-worthy, designer item. Use our unique 3-step **AMITHA VERMA FURNITURE PAINT SYSTEM** for the home of your dreams!

### Step 1: Painting Your Piece -

No prepping, sanding, or stripping required!

Begin painting in one corner and start brushing beautiful, long, clean, and continuous strokes across your furniture using our natural Amitha Verma boar's hair paint brush specifically designed to provide maximum coverage and a pro finish. You will want to avoid short strokes. Keep doing this until you cover your entire piece. The first coat will cover really, really well. Once it's dry, take a look at your piece and decide if you want to apply a second coat or if you just need to touch up a few parts that didn't get covered. Move on to step 2.

## Step 2: Applying Amitha Verma Furniture Wax In Clear!

If you want your finish to be durable and long-lasting, then applying clear wax to your piece is vital. The clear wax provides a protective seal on top of your painted finish. To start, take your large diameter round Amitha

Verma Clear Wax Brush specially designed to apply the wax quickly and evenly due to its round shape and optimal density. and dip it into your Amitha Verma Clear Wax. Get a thin coat of wax on your brush. Apply the clear wax all over your piece. Let it dry for 20 mins and move on to step 3.

## Step 3: Applying Amitha Verma Furniture Wax In Brown Or Gray.

Amitha Verma Brown and Gray Wax is the secret ingredient

to creating the richness and depth you love in painted furniture. This is the step that brings the gorgeous colors to life! To apply the dark wax, you'll want to dip your Amitha Verma Dark Wax brush into your wax and get a thin coat of wax onto your brush specially designed brush ensures you never fail to get the perfect amount of darker waxes on your piece. Then, apply the wax all over your piece using a "feathering" motion. Once the dark wax has completely dried after approximately 20 min, ask yourself, "Where are the areas that would show natural aging?" This is usually around the edges, handles, and any raised edges such as molding, creases and grooves. Go back into these areas and apply a second coat of wax to these areas. Let it dry for 20 mins.

Our thoughtfully curated, designer colors make picking the wrong color impossible. Create memories in your reinvented home—now and for years to come.

Simply select your Color, Wax, and pick up your Amitha Verma Brushes to transform your home today!
